This award is a symbol of excellence, a recognition of outstanding achievements, and an encouragement for continuous growth and success.”

TESTIMONIAL

What Customer Say

Aamir Ali
Actor & Model

Testimonial Video

I wanted to take a moment to share my feedback on Gravity products. I recently purchased gravity products and I must say I am thoroughly impressed with the quality and performance. The ease of use and durability exceeded my expectations. It's evident that Gravity prioritizes customer satisfaction in their product design. I appreciate the attention to detail and the reliability that comes with your products. Thank you for providing such a positive experience. I will not hesitate to recommend Gravity products to others.

What Client Say

Narender Goyal
Owner, Shyam Trading Co., Hyderabad

As a Gravity Bath Fittings Dealer for 15 years, I have confidently overcome customer complaints with ease. Thanks to their exceptional after-sales support and great product quality complaints dissolve effortlessly, leaving my customer happy with their purchases.

NO WONDER THEY ARE THE BEST IN CLASS!

MODERN PRODUCT & SAVE YOUR**

REMEMBER

The true measure of a product's worth lies in its tangible attributes-Quality, Functionality and Customer satisfaction

FROM DIRECTORS DESK

Anoop Garg
Director

Dear Valued Customer,

Greetings from **Gravity Bath Pvt. Ltd.**

I am **Anoop Garg**, the proud director of **Gravity Bath Pvt. Ltd.**, and I am thrilled to introduce you to our exceptional range of bathroom fittings and sanitary wares. At Gravity, we believe in creating products that reflect the true value of your hard-earned money.

We understand that many consumers may have reservations about purchasing expensive brands, questioning whether the investment is truly worth it. Let me assure you that **Gravity is not just a brand; it's a commitment to quality, durability, and your satisfaction.**

Our products are not designed for those who seek a mere label; they are meticulously crafted for individuals who recognize the true worth of their efforts. We take pride in our **research and development team, tirelessly working to ensure that our products not only meet but exceed your expectations.**

Living in a country with unique water characteristics, we acknowledge the challenges posed by the **salty and sandy nature of Indian water.** Unlike other brands, we tailor our products to suit the Indian environment, ensuring longevity and optimal performance even in the harshest conditions.

When you choose Gravity, you are choosing more than just a product; you are choosing a partner dedicated to **servicing you better.** We are committed to your satisfaction, and our products are a testament to the meticulous care and attention we put into every detail.

Join the community of satisfied Gravity customers who have experienced the **happiness that comes with choosing quality over extravagance.** Your trust is our greatest reward.

Thank you for considering Gravity Bath Pvt Ltd for your bathroom needs. We look forward to bringing happiness and functionality to your home.

Best Regards,

Director, Gravity Bath Pvt Ltd

A TOUCH OF LUXURY AND FOR ME ALONE

Part 1

The bathroom has grown into focal point of modern interiors, becoming the heart of families life and where the most important family are woven. Gravity will warm your heart with its new family of fascinating products, which belong to the very top of contemporary design solutions.

SS FAUCET

STAINLESS STEEL 304 FAUCETS

Advantages of stainless steel faucets:

Lead-free Material

Stainless steel faucet are made of material in compliance with ROHS rules, i.e No Lead Content. This revolutionary high quality, high strength material is lead and heavy metal free*, therefore helps to preserve water quality for both consumption and bathing.

Easy to clean and easy maintenance

Stainless steel faucet surface will not get rust, not change in raw copper green. It will not be piting hence it is very easy to clean and maintain for the user.

Go Green

Stainless steel faucet surface without plating will not cause pollution to the surrounding environment as its material can be recycled hence won't lead to waste of resources .

Excellent corrosion resistance

Stainless steel faucet's thin surface and dense chromium-rich oxide film makes the stainless steel pipe corrosion resistance whether being used with soft water or underground water.

BRASS CHECK VALVE

A check valve, also called a one-way valve, is a device that allows the flow of fluids to move only in one direction. The primary purpose of a check valve is to prevent backflow in the system. Check valves are cheap, effective, and easy solutions to a potential issue.

SANITARY

Expert Finesse Dazzling

At Gravity, trends in lifestyle, fashion, cuisine and culture influence the details of our work. From technologies that redefine the living spaces to materials and colourising in the zeitgeist, we study these movements.

This book represents the current and emerging trends we've identified as the most compelling for your bathroom spaces. Enjoy!

Clean and Odourless Closets

Each closet is equipped with Glazed traps to ensure Zero collection of waste & Odour, Minimal sticking of waste in the trap, Easy flushing for greater cleanliness and hygiene

Easy Installations & Fixtures

Convenience is an Integral part of all our products and we equip all with Superior Fixtures to ensure you get hassle free performance for years of usage.

Add-On Features

We also offer additional features like Siphonic flushing for better performance, Rimless closets for better cleaning

Stringent Quality

To Maintain highest quality standards our products undergo various test like Load Bearing Test, Wax Ball & Ink test for ensuring efficient flushing & chemical test to reduce possibility of stains

Siphonic

The trap way fills with water during the flush which initiates a Siphonic action which "pulls" material out of the bowl while the water entering the bowl from the tank through the jet and the rim "pushes" material out.

Rimless

The open design of the WC rim enables an innovative and powerful flush: water flows in the form of a horizontal arc, and then vertically, before flushing the entire inner surface of the bowl without splashing.

Scan QR Codes for Siphonic and Washdown Comparison Videos

Know about the Basic difference between Siphonic and Washdown One Piece Closet Functioning and Post Flushing Water Levels. Siphonic has a greater tendency to clog due to the smaller trapway. Since wash down does not need this suction, it has a larger trapway but leaves less water on the bowl after flushing compared to the half full of the Siphonic version. Splashing sometimes occurs when solid waste hits the water for wash down versions.

Tornado Flush

Dual-nozzle water propulsion system. More powerful flush, Cleaner bowl and less noise.

UF Seat Cover

Very easy to clean and even after years looks like at the first day. A high quality material and aesthetically looks like ceramic. Resistant against cigarette burns. Sounds more deep and less "plastic".

Natural Handcrafted Marble Design

Gravity introduces series of Art Basins specially Hand Crafted for you. Hand Crafted means these pieces are actually Hand painted, which makes them Eco friendly, Loving Designs & Long Lasting use. Where other art basins in the market are made using Paper Dip technology which can get wear and tear after short use. Whereas the hand crafted Basins ensure Long Lasting usage.
